

Penticton Forklift Training Courses

Penticton Forklift Training Courses - When forklift operator safety training is customized for illiteracy, training time is lessened by half. Forklift training certification, lift-truck operator driver safety training evaluation, and train the trainer programs offer thorough, regulation-compliant training in industrial-powered fork truck utilization and safety. Forklift pedestrian safety is also offered.

We have a really competent group of expert trainers to make certain that your workers are well-trained. The certification is delivered on site by one of our licensed instructors. Trainees would learn how to spot dangers and carry out safety inspections necessary for the safe and effective utilization of a powered industrial lift truck.

Forklift Training Tips

The checklist below is essential for any workplace that has forklifts on the premises. Each of these questions must be answered with "yes" if all the safety regulations and rules are being followed. A "no" to any question indicates a procedural weakness which may cause injury, damage to equipment or accident.

- 1) Is the pedestrian traffic separated from the forklift working area?
- 2) Is pedestrian access to forklift travel areas restricted by barriers?
- 3) Are pedestrian walkways provided and well marked?
- 4) A sign is clearly visible stating a "forklift in operation"?
- 5) There are mirrors provided at blind spots for pedestrians and operators?
- 6) Changes or alterations to the daily lift truck schedule has been communicated to workers?
- 7) Are forklift tires suitable for utilization on all operating surfaces?
- 8) Lift truck seatbelt is being utilized?
- 9) The forklift seat is in good condition?
- 10) The maintenance schedule of the forklift is being followed?
- 11) Are annual inspections of the forklift being carried out?
- 12) Is the forklift right for the needed job?
- 13) Is there a load chart that is readable on the forklift?
- 14) Can the operators read and understand the load chart?
- 15) The chart lists the safe lifting capacity for all attachments and their uses?
- 16) Are the warning devices on the lift truck working properly?
- 17) The speed operating control device is secured right?
- 18) Is overhead cage fitted correctly on the forklift?
- 19) Do the operators of the lift truck have certifications to utilize the machinery?
- 20) Warning signs and speed limits are being observed?
- 21) The operators have current training for the lift trucks being used?
- 22) Forklift operators understand their duties to report the damage to the machinery and other forklift incidences?
- 23) Prior to the machine being utilized, the pre-test checklist is being reviewed on a daily basis?
